PROFESSIONAL PROFILE

Ambitious & independent Web Developer with 3 years of experience designing, building and maintaining user-centric and feature-rich full-stack web applications and bespoke websites. Proven ability to take initiative and leverage technical & analytical skills to generate unique solutions to complex & novel problems.

EXPERTISE

- Building responsive single-page & progressive web applications using various web technologies
- Taking initiative to solve problems creatively and learn new technologies on the fly
- Blending the art of design with the skill of programming to deliver aesthetically pleasing projects
- Strong communication skills and expertise in managing clients & projects throughout the entire project lifecycle: discovery, concept, design, development, testing, deployment & support

EXPERIENCE

Web Developer | Webdacity

May 2018 - Present | *Cape Town*

Achievements

- Designed & built over 45 responsive websites & applications for clients spanning numerous industries
- Built fruitful & lasting relationships with 40+ recurring clients, all via referrals only
- The majority of completed projects have an average Lighthouse score > 90
- Built a custom full-stack e-commerce platform currently powering 8 shops

Responsibilities

- Managing the development of optimised, responsive & cross-browser compatible projects
- Liaise with clients to ensure projects meet their functionality, branding & business requirements
- Design mockups for apps & websites from scratch and convert them into fully functional products
- Building backend & server architecture to support and complement app features & functionality
- Refactor, redesign, optimise, test, debug and add new features to existing applications & websites
- Recommending & analysing business logic features for technical feasibility
- Design various project components such as UX/UI design of components, websites & apps, create quality mockups and prototypes for client approval, design custom brand identities

English Teacher

Dec 2016 - April 2018 | *Thailand, Vietnam*

I travelled throughout South-East Asia, obtaining my TEFL certificate, and teaching English as a second language. Used my spare time productively to enhance and increase my skills in programming, web development & graphic design.

EDUCATION

Bachelor of Commerce (Information Systems Management)

2016 - 2017 | *Stellenbosch University*

Bachelor of Accounting

2013 - 2015 | *Stellenbosch University*
