PROFESSIONAL PROFILE

I am a web developer & designer with 3+ years of experience and a vast portfolio of bespoke projects spanning numerous industries. Between living abroad in Vietnam and starting my own business (Webdacity), I have learnt to value not only the importance of adaptability and communication in a diverse environment, but also being pushed out of my comfort zone and developed an innate passion for learning.

Being a predominantly self-taught developer in parallel with running my own venture, I have leant to utilise my inherent initiative & resourcefulness in the constant pursuit to become a better developer and to contribute with a team in the building of a successful company as a whole.

EXPERIENCE

- **Web Developer | Webdacity**
  May 2018 - Present | *Cape Town*

  Webdacity has helped 40+ business get their businesses off the ground with well crafted & unique website/web-applications and brand identities for clients in various industries including:

  E-commerce | Engineering | Education | Finance | Beauty | Manufacturing | Legal | Medical

  Here an all-encompassing role was fulfilled with multiple duties including:

  - Web Development (Main Focus)

    Development of responsive static websites and SPA's | Development of custom e-commerce solutions | Refactoring & optimising existing systems | Implementation of UX/UI designs | Development & consumption of REST API's | Database integration & management | DevOps (CI/CD, Deployment etc.)

  - Design

    UX/UI design of websites & apps | Creating quality mockups and prototypes | Crafting complete & unique brand identities | Ad hoc graphic design | Social media content management

  Running my own company has greatly enhanced my professional skills in terms of self-discipline, relationship management, people skills, effective communication, innovative problem-solving, self-directed skills-acquisition & performing under stress.

- **English Teacher | APAX English**
  Aug 2017 - April 2018 | *Hanoi, Vietnam*

  Teaching English as a second language Hanoi, Vietnam. Used my ample spare time productively to enhance and increase my skills in programming, web development & graphic design to sufficiently prepare myself for a career in web development.

EDUCATION

- **Bachelor of Commerce (Information Systems Management)**
  2016 - 2017 | *Stellenbosch University*

  | Web Development | Business Analytics | Database Systems Design | Information Management

- **Bachelor of Accounting**
  2013 - 2015 | *Stellenbosch University*

- **National Senior Certificate (7 Distinctions)**
  2008 - 2012 | *Pretoria North High School*
